CONTENTS

FARMERS' BULLETIN No. 1476.—JOHNSON GRASS: ITS PRODUCTION FOR HAY AND PASTURE: Page

Origin and distribution 1
Hay production 3
Centers of production 3
Establishing a meadow 4
Maintaining a meadow 4
Irrigating a meadow 5
Time of cutting 6
Curing the hay 7
Baling and storage methods 7
Yields and quality of the hay 8
Markets and prices 9
Feeding value 9
Weeds and their control 11
Value in rotations 12
Mixtures with cowpeas and soy beans 13
Feed reserves for livestock in dry regions 13
Laws affecting the production and shipping of hay 13
Pasture 15
Carrying capacity 15
Effect of pasturing meadows 15
Pasturing or feeding the rootstocks 16
Prussic-acid poisoning 16
Seed production 17
Use as an annual hay grass in the North 17
Hybrids of Johnson grass and sorghum 18
Johnson grass as a weed 19

FARMERS' BULLETIN No. 1477.—PREVENTING DAMAGE BY LYCTUS POWDER-POST BEETLES:

Injury and habits 1
Prevention of attack 2
Inspection, classification, and rapid utilization 2
Protective applications and treatments 3
Remedial measures 5
Disposal of infested stock 5
Killing the insects in stock to be saved 6
Insect parasites, predatory enemies, and scavengers of Lyctus beetles 11
Summary 11

FARMERS' BULLETIN No. 1478.—APPLE SCAB:

Economic importance of apple scab 1
Distribution 1
Description 2
Life history of the fungus 3
Relative susceptibility of apple varieties 4
Preventive measures 4
Removal of infection sources 4
Spraying 4
Dusting 7
Lime-sulphur solution 8
Bordeaux mixture 9

FARMERS' BULLETIN No. 1479.—APPLE BLOTCH:

Economic importance of apple blotch 1
Distribution 1
Description 2
Life history of the fungus 3
Relative susceptibility of apple varieties 4

76509°—28

FARMERS' BULLETIN NO. 1479—APPLE BLOTCH—Continued. Page
Preventive measures 4
Removal of infection sources 4
Spraying 4
Bordeaux mixture 8
Lime-sulphur solution 10
Spreaders 11
FARMERS' BULLETIN NO. 1480.—SMALL CONCRETE CONSTRUCTION ON THE FARM:
Preparation of site, materials, and methods 1
Feeding floors 9
Barn floors 13
Walks, curbs, and steps 14
Tanks and troughs 18
Hog wallows 31
Manure pits 31
Dipping vats 36
Water heater 37
References to department publications relating to the structural use of concrete 37
FARMERS' BULLETIN NO. 1481.—PLANTING THE ROADSIDE:
Control of planting 3
Summary of laws 10
Planning for the trees 12
Spacing the trees 16
Arrangement of shrubs and perennials 20
Kinds of trees to use 24
Planting the trees 26
Pruning the trees 30
Guards 30
Later care 31
Culture 31
Pruning 32
Spraying 32
Memorial trees 34
FARMERS' BULLETIN NO. 1482.—TREES FOR ROADSIDE PLANTING:
Kinds of trees suitable for the roadside 1
Regions of adaptability 3
Trees for special purposes 9
Descriptions of roadside trees 10
FARMERS' BULLETIN NO. 1483.—CONTROL OF INSECT PESTS IN STORED GRAIN:
The problem serious, but can be solved 1
Spontaneous generation of grain insects a myth 2
Initial infestations occur in the field 2
Early fumigation profitable 5
When and where to fumigate 6
Common methods for controlling grain insects 7
Common heavier-than-air fumigants 15
Carbon disulphide 17
Ethyl acetate-carbon tetrachloride mixture 23
Carbon tetrachloride 25
How to fumigate with heavier-than-air gases 25
Odors following fumigation 27
Effect of fumigation on the germination of seeds 28
Heating grain and fumigation 28
FARMERS' BULLETIN NO. 1484.—THE CLOVER-LEAF WEEVIL AND ITS CONTROL:
Nature of injury 1
Distribution 1
Description and life history 1
Number of generations 3
Food plants 3
Control 4
FARMERS' BULLETIN NO. 1485.—RURAL HOSPITALS:
Origin of rural hospitals 1
Legislation for county hospitals 2
Hospitals and economy 2
Diminishing supply of country doctors 4

FARMERS' BULLETIN No. 1485.—RURAL HOSPITALS—Continued. Page
Medical education and the supply of country doctors 4
Rural hospitals relieve country-doctor shortage 6
Further need for hospitals in rural communities 7
Advantages of rural hospitals 9
What a community needs to know before instituting a hospital 10
Some elements of a building program 11
How to extend use of hospital 12
Types of hospitals and specific examples 13
County hospitals 13
County-home hospitals 19
Township hospitals 22
Town hospitals 24
District hospitals 28
Community hospitals 31
Community-private hospitals 36
Southern mountain hospitals 40
Conclusion 46
FARMERS' BULLETIN No. 1486.—LONG-LEAF PINE PRIMER:
Growing long-leaf pine as a crop 1
The tree 3
Can long-leaf pine come back? 4
Growth 6
Timber production 8
Naval stores production 10
Thinnings 14
Cutting the crop of pine 16
Protection 20
Reforestation by planting small trees 23
Reforestation by sowing seed 27
Cost of growing long-leaf pine timber 28
FARMERS' BULLETIN No. 1487.—PRACTICAL HOG HOUSES:
Proper shelter necessary for hogs 1
Sunlight and ventilation essential 2
Farrowing houses 2
Central farrowing house 3
Farrowing house for northern conditions 5
Farrowing house for southern conditions 7
Individual houses 8
The box-type house 9
The A-type house 10
General hog shelter 10
Shade for warm weather 11
FARMERS' BULLETIN No. 1488.—DISEASES OF RASPBERRIES AND BLACKBERRIES:
Introduction 1
Mosaic and related diseases 1
Mosaic on red raspberries 2
Mosaic on black raspberries 3
Leaf curl on red raspberries 4
Leaf curl on black raspberries 5
Streak 6
Means of dissemination of virus diseases 8
Control 9
Fungous diseases of raspberries 11
Anthracnose 11
Crown gall 13
Cane blight 14
Orange rust 15
Late raspberry rust 16
Yellow leaf rust 16
Mildew 17
Spur blight 17
Leaf spot 18
Blue stem 18
Raspberry fruit rots 18
General control measures for raspberry diseases 18

FARMERS' BULLETIN No. 1488—DISEASES OF RASPBERRIES AND BLACKBERRIES—Continued. Page
Diseases of blackberries and dewberries 19
Anthracnose of blackberries 19
Anthracnose of dewberries 20
Crown gall 22
Double blossom (double bloom) 22
Orange rust 24
Cane rust 25
Leaf spot 27
Leaf blight 27
Diseases of the Logan blackberry 28
Dewberry fruit rots 29
Mosaic and other related diseases 31
Suggestions for preparing Bordeaux mixture 31
Lime-sulphur solution 32
FARMERS' BULLETIN No. 1489.—THE GREEN JUNE BEETLE LARVA IN TOBACCO-PLANT BEDS:
How the plant beds become infested 1
Seasonal history of the green June beetle 1
Nature of damage 2
How to determine the presence of the grubs in the plant beds 2
Control measures 3
Poisoned-bran bait 4
Dusting the plant beds 4
Fumigants 5
Repellents 5
FARMERS' BULLETIN No. 1490.—HOG-LOT EQUIPMENT:
Fences 1
Gates 5
Waterers 5
Troughs 7
Feeding floors or platforms 8
Self-feeders 8
Creeps 9
Hay feeders 11
Shades 12
Oilers and dipping vats 13
Wallows 15
Breeding crates 15
Shipping crates 17
Hurdles 17
Loading chutes 18
Scales 20
Record books 21
FARMERS' BULLETIN No. 1491.—BREEDS OF DOGS:
American specialty clubs for breeds discussed in this bulletin ii
Airedale terrier 1
Beagle 2
Boston terrier 3
Brussells griffon 5
Bulldogs:
English bulldog 5
French bulldog 6
Bull terrier 8
Cairn terrier 9
Chesapeake Bay dog 9
Chowchow 11
Collie 12
Dachshund 13
Dalmatian 14
Doberman Pinscher 15
Foxhound 16
Fox terrier 17
German shepherd dog 19

FARMERS' BULLETIN No. 1491.—BREEDS OF DOGS—Continued Page
Great Dane 20
Greyhound 21
Irish terrier 22
Irish wolfhound 24
Newfoundland 25
Old English sheep dog 25
Pekingese 27
Pointer 28
Police dog. (*See* German shepherd dog) 19
Pomeranian 29
Poodle 30
Retrievers 31
Russian wolfhound 31
St. Bernard 32
Samoyede 33
Scottish terrier 34
Sealyham terrier 36
Setters:
English setter 37
Irish setter 38
Sporting Spaniels:
Cocker spaniel 39
Clumber spaniel 40
English springer spaniel 41
Field spaniel 42
Irish water spaniel 42
Sussex spaniel 43
Welsh springer spaniel 43
Welsh Terrier 43
West Highland white terrier 44
Whippet 45
FARMERS' BULLETIN No. 1492.—ARBOR DAY: ITS PURPOSE AND OBSERVANCE:
Origin of Arbor Day 1
Spread of the observance of Arbor Day 1
Time of Arbor Day 4
Arbor Day and the spirit of civic betterment 6
Planting of trees along streets and highways 7
Memorial trees 8
Trees to plant 8
Planting suggestions 12
Caring for the trees 13
Wood and water 13
Community forests 14
American Forest Week 16
FARMERS' BULLETIN No. 1493.—LICE, MANGE, AND TICKS OF HORSES, AND METHODS OF CONTROL AND ERADICATION:
Horse lice 1
Horse mange 5
Ticks 12
Treating horses for external parasites 16
Dips for horses 18
Dipping vats 22
FARMERS' BULLETIN No. 1494.—TOBACCO CUTWORMS AND THEIR CONTROL:
Life history of cutworms 1
Seasonal history 2
Period of destructiveness in the spring 2
Species which lay their eggs in the spring 2
Species which lay their eggs in the fall 4
Natural control 7
Predatory enemies 8
Insect parasites and diseases 8
Climatic conditions 9
How to tell if cutworms are present in a field 9

FARMERS' BULLETIN No. 1494.—TOBACCO CUTWORMS AND THEIR CONTROL—Continued Page
Remedial measures 9
Dry applications to plants in the field 9
Materials to be used in a poisoned bait 10
How to mix the poisoned bait 10
Application of the bait and quantity per acre 11
Treatment of plant beds 11
Poisoned vegetation as a bait 11
Fall plowing 12
Late-spring plowing 12
Ditching 12
Precautions 13
Summarized recommendations for applying poisoned bait 13
FARMERS' BULLETIN No. 1495.—INSECT ENEMIES OF THE FLOWER GARDEN:
Manner of feeding as related to artificial control 1
Preparation of insecticides 1
Stomach poisons 1
Contact insecticides 3
Caution concerning use of insecticides 6
Spraying and dusting equipment 6
Cooperation and good cultural methods essential 10
Insects that eat plant tissue 11
Leaf-eating caterpillars 11
False caterpillars 21
Stalk, stem, and root borers 25
Beetles, wasps, and grasshoppers 28
Leaf miners 36
Insects that suck plant juices 38
Aphids 38
Thrips 39
Greenhouse white fly 40
Scale insects 40
Mealybugs 42
Plant bugs 43
Miscellaneous and soil pests 46
Spider mites 46
Gall makers 47
Ants 47
White grubs 48
Wireworms 49
Millipeds or "thousand-legs" 49
Sowbugs or pillbugs 50
Termites 50
Slugs and snails 51
Earthworms 51
Index 53
FARMERS' BULLETIN No. 1496.—INOCULATION OF LEGUMES AND NONLEGUMES WITH NITROGEN-FIXING AND OTHER BACTERIA:
Introduction 1
Legumes and nonlegumes 2
Root-nodule bacteria of leguminous plants 4
Nitrogen fixation by legumes 12
Bacteria on and around the roots of nonlegumes 13
Nitrogen fixation by bacteria around the roots of nonlegumes 14
Inoculation of legumes with nodule bacteria 15
Inoculation of nonlegumes with beneficial bacteria 17
Reasons for the use of artificial cultures for legume inoculation 18
Objections to the use of artificial cultures for the inoculation of nonlegumes 19
Supervision of the distribution of commercial cultures 20
Practical tests of the value of inoculation 20
Directions for the inoculation of leguminous plants 22
Use of mineral fertilizers with inoculated seed 25

FARMERS' BULLETIN NO. 1497.—METHODS AND EQUIPMENT FOR HOME LAUNDERING: Page

The laundry room 1
Equipment 3
Washing equipment 4
Drying equipment 11
Ironing equipment 12
Laundry supplies 16
Water 16
Soaps and other cleansing agents 19
Bluings 21
Starches and other finishes 22
Methods of laundering 24
Preparing the clothes for laundering 24
White cottons and linens 25
Colored cottons and linens 31
Woolens 33
Silks 34
Artificial silks (rayon) 35
Lace curtains 35
Pillows 35
Infected clothes 36

FARMERS' BULLETIN NO. 1498.—THE CHINCH BUG AND HOW TO FIGHT IT:

Occurrence and importance of the chinch bug 1
Seasonal history 1
Life history 3
Migrations 4
Plants attacked 4
Plants not injured 5
Conditions affecting the abundance of chinch bugs 5
Climatic conditions 5
Systems of farming 6
Natural enemies 6
How to fight the chinch bug 7
Winter burning 7
Cropping 10
Barriers 11
Spraying 15
Dusting 16

FARMERS' BULLETIN NO. 1499.—THE MELON APHID AND ITS CONTROL:

Description of the insect and nature of attack 1
Distribution 3
Food plants 4
Seasonal history 4
Insect enemies 4
Methods of control 5
Summary of control measures 15

FARMERS' BULLETIN NO. 1500.—RAMMED EARTH WALLS FOR BUILDINGS:

Introduction 1
Pisé de terre 1
Selection of material 3
Test for quality and consistency 4
Preparation of earth 5
Tools and forms 6
Wall thickness 7
Foundations 8
Construction 9
Placing and ramming 9
Bonding 11
Reinforcement 11
Support of joists 13
Openings in walls 14
Lintels and sills 15
Chimneys and fireplaces 16
Plates for joists and rafters 17

FARMERS' BULLETIN NO. 1500.—RAMMED EARTH WALLS FOR BUILDINGS—Continued.

Construction—Continued. Page

Partitions 17
Interior wall surfaces 18
Exterior wall surfaces 19
Cost of pisé work 22
Protection from animals and ants 22
Blocks 23
Use of contractor's implements 23
Conclusion 23
